

Name: Puzzle

starting screen

user clicks either of  
HOW TO PLAY or START GAME

When HOW TO PLAY is clicked

Explanation of the game.

Click START GAME to start

the game

When START GAME is clicked

Display the completed image

for about 5 seconds with

counting down (5,4,3,2,1, START)

The gray boxes are empty.

The white boxes are the puzzle pieces.

The character picks up the puzzle piece.

If the player places the piece at a correct place then it's good.

If it is wrong, then it freezes for 3 seconds, and the piece goes to its original position.

If the player completes the puzzle, the score is calculated based on the time the player spent.

Then, the second puzzle pops up and repeats from the third screen.

After completing two puzzles, total score and time are displayed.

Starting screen.

START GAME button.

Level 1. There are 1 levels.

Level 1 will have 4 arrows.

The game is over when the timer

is over.

Level 2. - 5 arrows.
